

Other Program Options*:

Irvine naturalists can tailor some of our current programs to have a more specific content focus. Contact us if you would prefer one of the following subjects:

- *Bumblebees*
- *Gardening for Birds*
- *Mimicry and Deception in the Insect World*
- *Native Shade Gardens*
- *Nocturnal Nature*
- *Phenology and Climate Change*
- *Supporting Pollinators in Spring/Fall*

Irvine can also offer more hands-on workshops on topics such as the identification of birds, trees, animal skulls, and native bees. These may include the use of taxidermy mounts, samples from the field, or guided outdoor practice.

**Please note that pricing may be different for custom programs.*
